

## A Message from NAPR President Steve Look

On behalf of the NAPR Board of Directors, we hope you're having a banner year as we continue a return to some semblance of normalcy in work and life! We have experienced a steady increase in NAPR membership in 2022 and remain enthusiastic on the future of our association. After 35+ years, our mission to serve as a trusted resource in ensuring integrity in our industry, while providing education and networking opportunities to our membership, remains stronger than ever!

We hope you have had an opportunity to participate in our [webinar series](#) this year. We've had several extremely insightful guests providing excellent content on our industry, leadership development and best practices for physician and advanced practice recruiters. Several more sessions are scheduled in the coming weeks/months; please be sure to sign up for this resource, provided FREE to all NAPR members.

Also, we have been hard at work optimizing the [World Job Bank](#) (WJB), our NAPR member-exclusive job board. Thank you to all of those who have provided feedback on your experience utilizing the WJB and helping us to improve its functionality. The WJB remains one of the most cost-effective job board and candidate database resources in the industry. If you are not currently using this tool, please take a minute to explore this exclusive member resource.

Lastly, we are officially gearing up for our [annual convention](#) in February 2023, taking place in San Antonio at the beautiful Hyatt Regency San Antonio Riverwalk. San Antonio has been one of our most popular, and affordable, venues in recent years and we are excited to see you there!

Wishing everyone a stellar finish to 2022!

Steve Look  
NAPR President
